

About The Amaden Gay Agency

The Amaden Gay Agency is located in the historic village of East Hampton, NY. The company was started in 1890 as a multi-service business that also served as the village blacksmith shop. We occupy that same building today. Prior to World War I a real estate and insurance business was developed to serve the local and New York City community. Shortly after World War II the Amaden Gay partnership was formed between James P. Amaden and his stepfather, J. Edward Gay Jr.

Why choose Amaden Gay to help protect your high net worth clients?

For over 100 years we have provided innovative insurance solutions and unparalleled service to affluent families. Our staff of over twenty-five licensed insurance agents brings years of experience to each and every client. Our Private Client Services department has the expertise and carrier relationships to handle all of your clients' personal insurance needs.

Our Private Client Services offer diverse and comprehensive products from Chubb, Chartis, ACE Private Risk, Fireman's Fund, PURE and Axa Fine Art. These are the leading insurance companies providing property & casualty products for high-net worth individuals. There is simply no agency better able to assess and manage the complex risk management needs of your most valuable clients. Amaden Gay's mission is to provide the optimal insurance solution based on each family's unique needs, and to ask the right questions in advance, so that they are properly protected.

What You Can Expect From Us
